ECSCI Remote Workshop (ECSCI SPM Workshop)

Collaborative Standardisation and Policy Making For Greater CI Resilience in Europe

Tuesday, December 5th, 2023

The goal of the workshop is to gather different perspectives on the resilience of the Critical Infrastructure (CI) in Europe and form a joint strategy for efficient and effective collaborative standardisation and policy making in this area.

By **(i)** understanding the long-term vision on CI resilience presented by the European Commission,
(ii) welcoming experience and lessons learnt from closed EU-funded projects, **(iii)** recognising the gaps in current standardisation and policy making activities, and **(iv)** identifying opportunities

presented by running EU-funded projects, we will synchronise on the actions needed and be taken.
